

Randolph-Asheboro YMCA

Announcement

As a YMCA family, we always have safety and health concerns as a top priority. At the Randolph-Asheboro YMCA, we are being proactive in regards to the spread of the COVID-19 (coronavirus) and taking appropriate precautions. On Tuesday, Governor Cooper declared a state of emergency. Currently, there are NO reported cases of COVID-19 in Randolph County. Health Officials are urging precautions so that the virus does not spread further. I have had several conversations with medical professionals and they all recommend these simple things that we can do to make sure that everyone is safe:

-Please wash your hands frequently. This is the most effective thing we can do.

-When we are together, please greet each other with your beautiful smile instead of shaking hands or touching one another.

-If you are feeling sick for any reason, please do not come to the YMCA. We will be here tomorrow.

-The cleaning service and custodial staff, along with the rest of the staff, are being extra attentive to making sure all surfaces are frequently cleaned. There is hand sanitizer available in common areas.

We will get through this together.

Sincerely yours,

Patrick O'Hara

CEO Randolph-Asheboro YMCA
