DEEP WATER HIIT - 9:15am Mon (LeeAnne), Wed (Margaret), Fri (rotation)

The popularity of high intensity interval training is on the rise. High intensity interval training (HIIT) workouts involve bouts of high intensity effort followed by varied recovery times. HIIT workouts tend to burn more calories and boost metabolism more than other traditional workouts. Even though a HIIT workout is challenging, it can be modified for people of all fitness levels. Deep Water HIIT participants will be secured with a swim belt to allow safe and free flow movements.

AQUA BOOTCAMP - 10:15am Mon (Margaret)

Aqua Bootcamp is the high intensity workout you've been looking for!

If you're looking for a workout which will maintain or increase your fitness level with less impact on your joints, a "liquid gym" is the place to be!

This higher intensity class is designed to improve cardio conditioning and endurance; alternating with strength/balance, and core training.
